

TRACK THEM · BOOK THEM · LOVE THEM™

BOUJEE BOOK™

The Operating System for Personal Care.

Book licensed beauty professionals. Watch them arrive like a ride-share.
Zero commission — pros keep 100%.

Pre-Seed · July 2026 · help@boujeebook.app

Personal care still runs on DMs and no-shows.

1

Discovery is fragmented

Finding a great barber or lash tech means Instagram archaeology, screenshots, and word of mouth. There is no trusted, licensed marketplace.

2

Booking is phone tag

DMs, missed calls, double-booked slots. Independent pros spend hours a week coordinating instead of working.

3

No-shows and blind waits

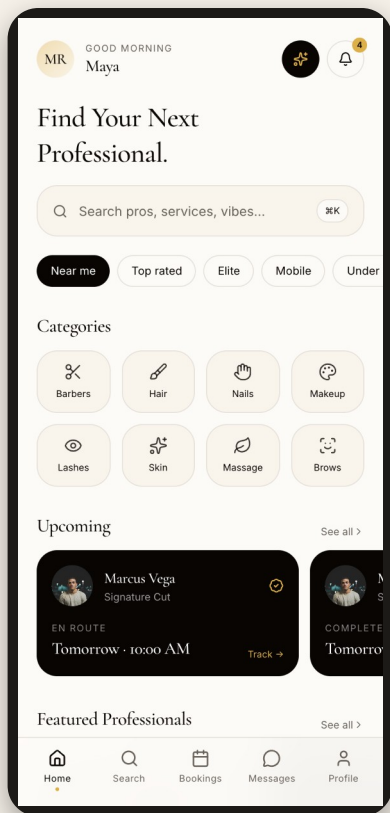

Clients don't know if the pro is coming; pros eat the cost when clients ghost. Neither side has visibility after booking.

4

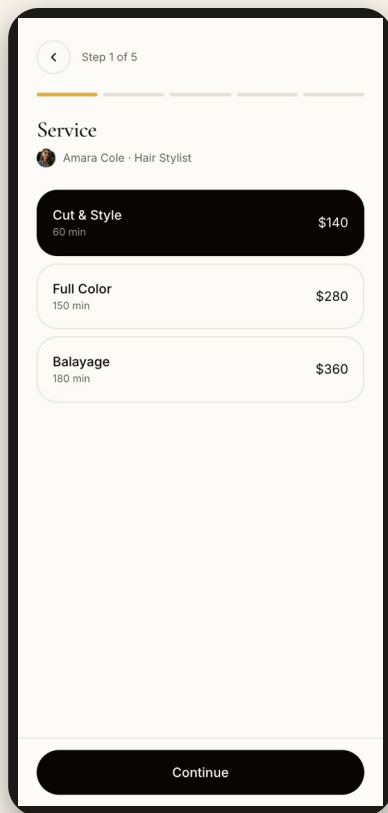

Platforms tax the pro

Existing booking apps charge commissions and fees, squeezing solo professionals who already run on thin margins.

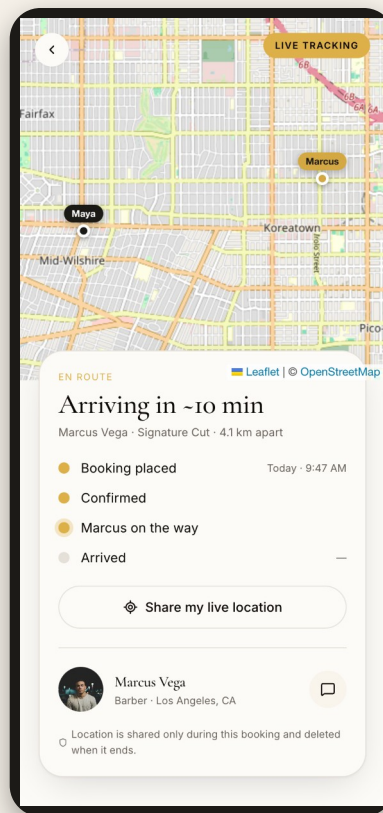

One app. Both sides. Ride-share polish.

Discover licensed pros

Book real openings in five taps

Watch them arrive — live

Book like a ride

Real-time availability with server-enforced conflict prevention. Double-booking is impossible.

Track like a delivery

Two-way live GPS during active bookings: on my way, arrived, done — with ETA.

Priced like a friend

Zero commission. Pros keep 100% of service revenue; the platform runs on memberships.

No one else lets you watch your stylist arrive.

- **Two-way live GPS**

Client sees the pro approaching; the pro sees exactly where the house call is. Both opt in per booking.

- **Journey statuses**

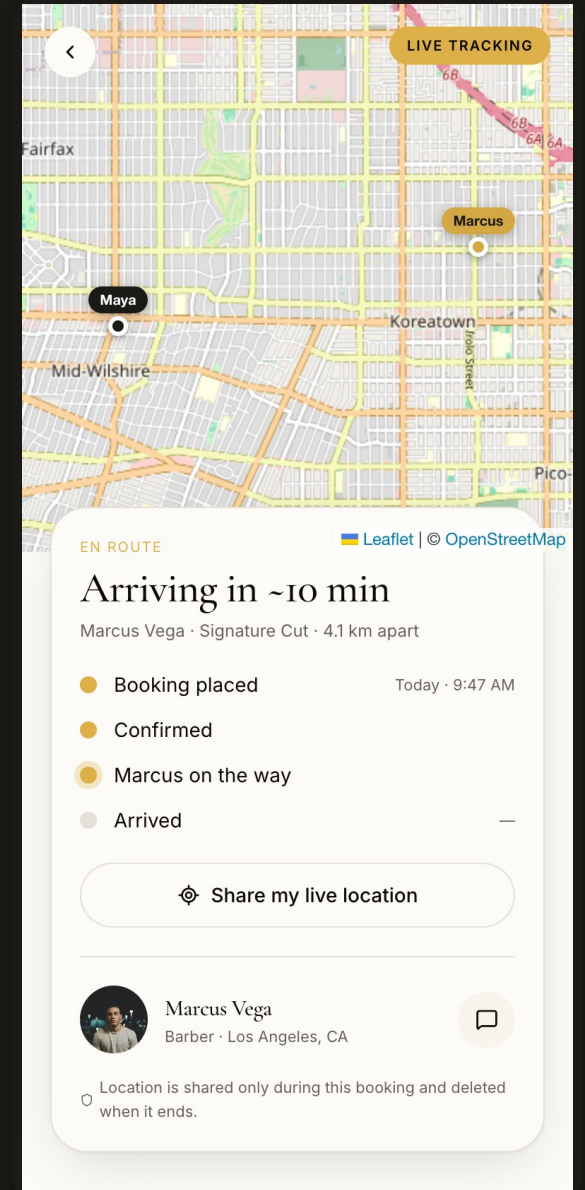

Confirmed → on my way → arrived → done. Every step notifies the other side instantly.

- **Live ETA & distance**

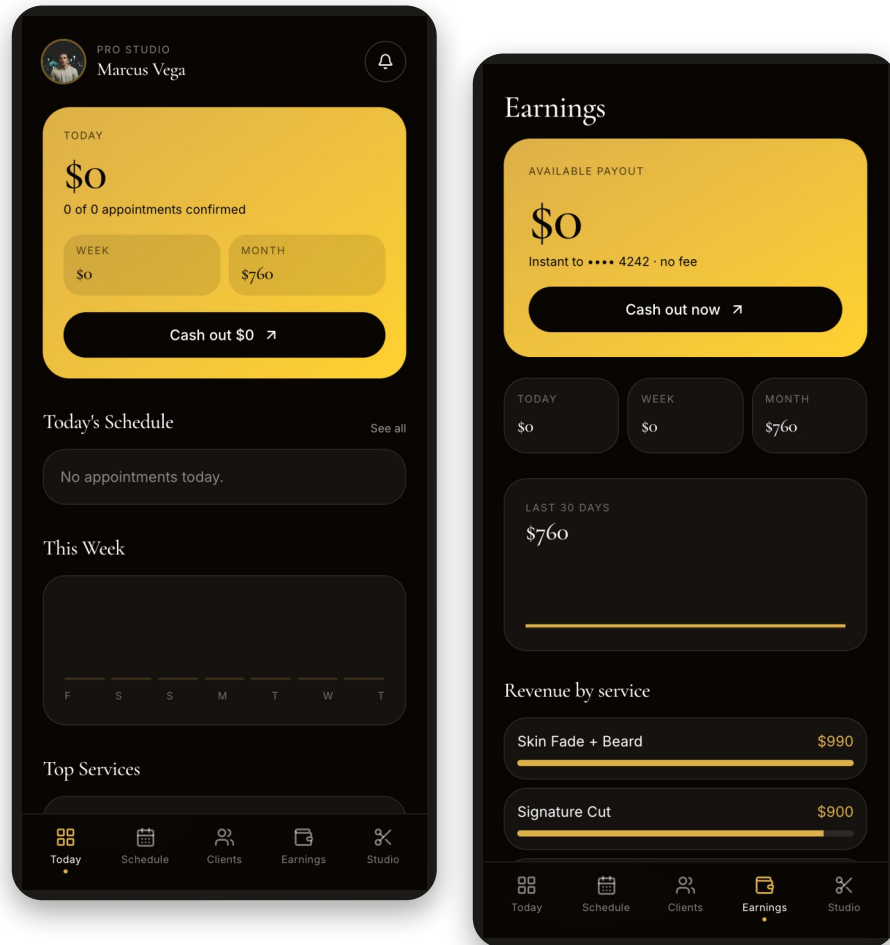

Real map, real position, honest arrival estimate — like every delivery app your users already trust.

- **Privacy-first by design**

Location shares only during an active booking and is permanently deleted the moment it ends.

Pros get a business-in-a-box. Free to run.

1 Self-serve onboarding

License capture, service menu, working hours — live and bookable the same day.

2 Anti-chaos calendar

Availability rules enforced server-side; requests expire; one-tap confirm.

3 A real client CRM

Visit history, favorite services, and lifetime value for every client, built automatically.

4 Earnings that make sense

Daily / weekly / monthly revenue, top services, CSV statements for tax time.

5 100% of their money

Zero commission — the platform monetizes memberships, not the pro's labor.

Trust is engineered in, not promised.

1

License verification

Pros submit state licenses; an admin trust queue reviews before the verified badge appears.

2

Moderation built-in

Report any profile or conversation; block users; admin queues with audit-logged actions.

3

Dispute resolution

In-app dispute center; human review; resolution recorded and messaged to the customer.

4

Hardened platform

Rate-limited auth, hashed credentials, session controls, security headers, full audit log.

5

Data rights, instant

One-tap data export and account deletion — GDPR / CCPA / App Store compliant.

6

Location privacy

GPS shared only during active bookings, deleted at completion. No ad trackers anywhere.

A massive market still booked over DMs.

~\$95B

US personal-care services spend (est.)

Hair, barbering, nails, skin, lashes, massage — recession-resilient and habitual.

~1.4M

US beauty & wellness professionals (est.)

A majority independent or booth-renting — exactly who a 0% platform serves.

~\$18B

Serviceable: urban mobile-first bookings (est.)

Metro clients who already live in Uber, DoorDash, and Instagram.

Wedge: launch city-by-city with mobile-capable pros (house calls), where live tracking matters most and word of mouth is strongest.

Market figures are directional estimates from public industry data; detailed sourcing available in diligence.

Memberships, not commissions.

Customer Basic

Unlimited booking, reviews, reminders

\$9.99/mo

Customer Elite

Priority windows, cancellation protection, rewards

\$29.99/mo

Pro Basic

Calendar, messaging, standard payouts

\$9.99/mo

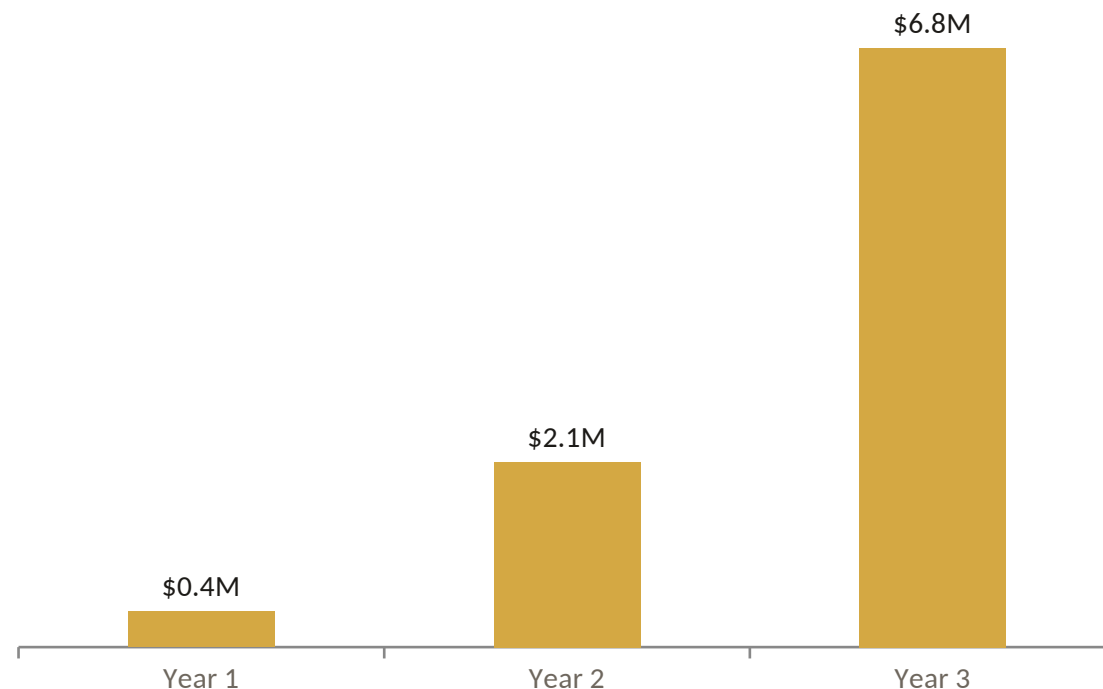

Pro Elite

Instant payouts, featured placement, higher daily volume

\$29.99/mo

0% take-rate is the supply-acquisition weapon: pros bring their books — and their clients — with them.

Illustrative membership ARR (\$M)

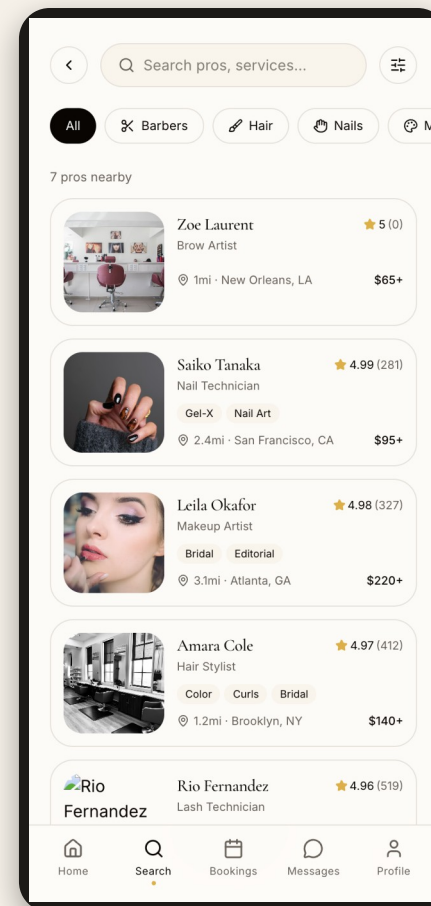

Illustrative model, not a forecast — assumes city-by-city rollout with blended ~\$14/mo ARPU across the four tiers.

Calendars, agencies, and DMs — nobody owns the full loop.

	Boujee Book	Booksy / StyleSeat	Glamsquad	Instagram DMs
Two-way live GPS tracking	YES	—	—	—
Commission on pro revenue	0%	Fees + charges	Agency margin	0%
License verification	YES	Partial	In-house staff	—
Real-time availability	YES	YES	YES	—
Both-sides consumer app	YES	Pro-first	Client-first	—
Disputes & moderation	YES	Basic	Internal	—

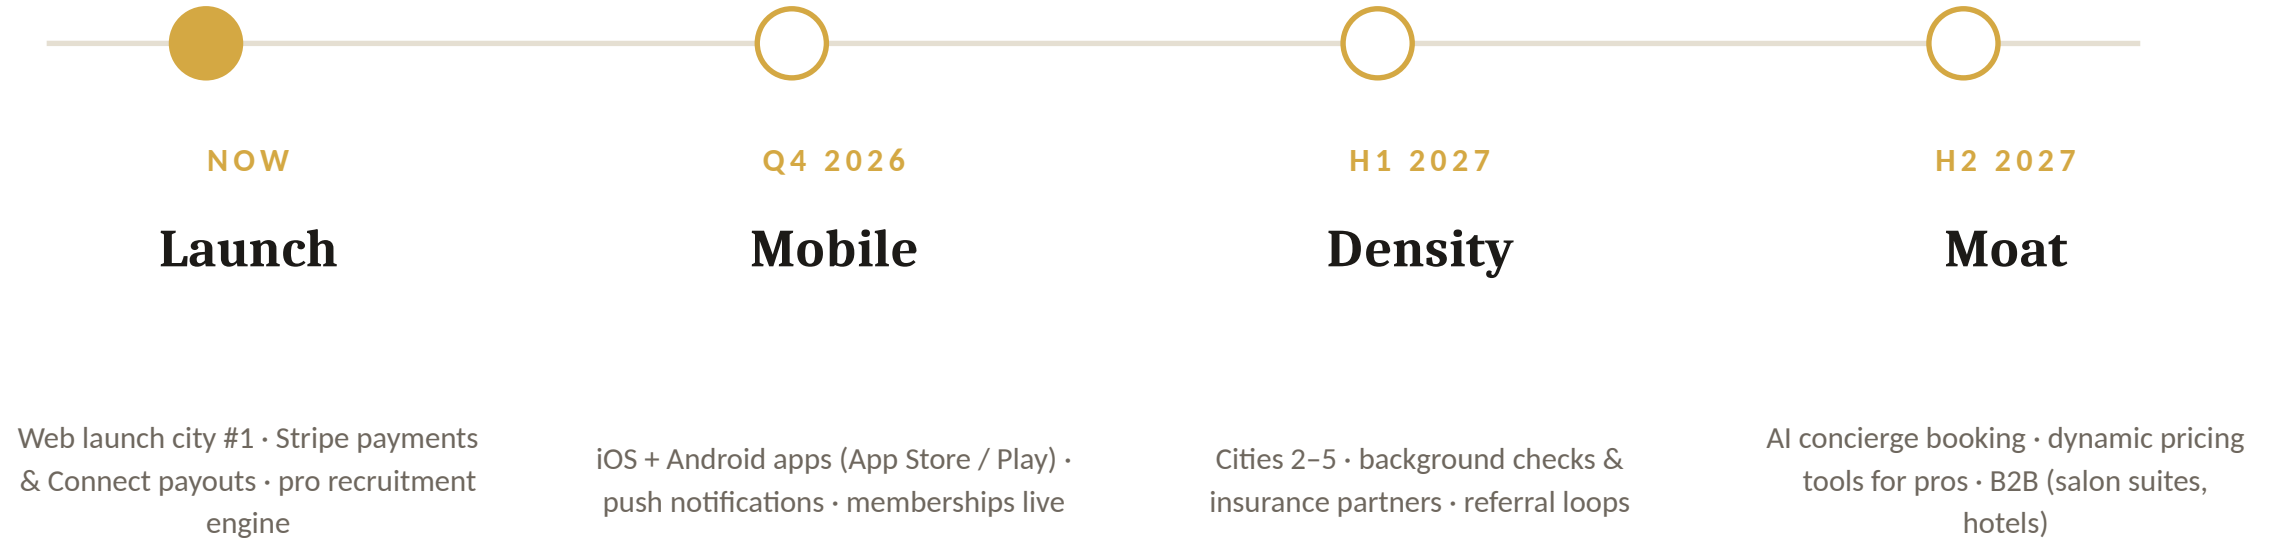

The product isn't a promise. It's built.

- ✓ Three shipped surfaces: customer app, pro studio, admin console
- ✓ Availability engine — double-booking is impossible
- ✓ Messaging, reviews, favorites, notifications — all live
- ✓ Security hardening: rate limits, session controls, headers
- ✓ Live two-way GPS tracking with journey statuses and ETA
- ✓ Self-serve pro onboarding with license verification queue
- ✓ Disputes, reporting, blocking, audit-logged moderation
- ✓ Data export & account deletion (App Store / GDPR ready)

Next 60 days: Stripe payments + payouts, media uploads, production deploy, first-city pro recruitment.

Roadmap to a category brand.

Every phase compounds the same flywheel: more verified pros → better selection → more clients → fuller books → more pros.

The Ask

Raising \$1.5M pre-seed.

18 months of runway to launch, reach paid-membership revenue, and make city #1 undeniable.
